

Stat 445: Proposal for Final Project

Proposal Due: Wednesday, March 23 *in class*

Project Due: Monday, April 18 at 5:00pm (location to be announced)

Proposal: Each project group or individual working alone is required to submit a proposal for the final project. The proposal should be brief (one page is probably enough) and will be graded out of 10 points, with roughly 2 points for each of:

- motivation for project;
- clarity of objectives and data;
- scope of project;
- originality of project;
- quality of proposal.

I will provide feedback on the proposals as quickly as possible, giving priority to proposals handed in before the due date. Some of you may want to modify your project after receiving the feedback. If so, you will need to discuss that with me (but you will not need to write another proposal).

Project: The final project reports will be due on Monday, April 18 at 5:00pm. More detail on the length requirements and the marking scheme will be made available on the webpage at a later date.
